IMMUNIZATION RECORD FOR SCHOOL ADMITTANCE

to be completed by Family Physician

Immunization Requirements

Pupils enrolled in kindergarten through grade 12 (in the United States) are required to have written proof on file at their public or nonpublic school that they have been immunized against DPT (diphtheria, pertussis, tetanus), poliomyelitis, measles, mumps and rubella and Hepatitis B. Failure to do so is cause for exclusion from school. Required immunizations may vary from state to state.

MINIMUM IMMUNIZATION REQUIREMENTS:

- * Five or more doses of DPT, DT (Pediatric), TD (Adult) vaccine or a combination thereof;
- * Three or more doses of trivalent oral polio vaccine (TOPV), or (IPV);
- * Two doses measles vaccine;
- * Two doses mumps vaccine;
- * Two doses rubella vaccine;
- * One dose of Varicella;
- * Three doses of Hepatitis B;
- * MCV4 (Meningococcal) Please see attached memorandum.

If the final dose of any of the above vaccines occurs before the thirteenth (13th) birthday, a booster shot is required.

Guidelines for Medication Administration

The following is a list of guidelines that must be followed for any medication to be administered at Foxcroft Academy.

- 1. The school nurse must have written notification from student's healthcare provider, on the school form or prescription pad of the following:
 - a. Name of the medication.
 - b. Condition being treated.
 - c. Dosage and times the medication is to be given.
 - d. If the medication is other than an oral medication, the route should also be stated.
- 2. All medications must be in their original container with the label. Whenever possible, labels should be in English. If they are in another language, then an English translation of the label must be given to the nurse. All containers must also be labeled to match the prescription written by the healthcare provider.
- 3. All medication will be supplied to the nurse, either in person or through the mail in a timely fashion. Deviation from this policy may cause a delay or interruption in receiving the medication. The nurse does not provide reminders.
- 4. It is not considered ethical for healthcare providers to write prescriptions for their own children. Please seek the services of another healthcare provider.
- 5. Herbal and homeopathic medication in any form will be treated as medications, not as supplements. Please note that if any of these are found to be controlled or illegal substances in the U.S., then an acceptable alternative medication must be used instead.
- 6. Unclaimed medications shall be disposed of after 2 weeks. Controlled substances cannot be sent via mail.
- 7. All medications must be administered by or under the direction of the nurse or dorm staff on duty. This includes all over-the-counter medications, prescriptions, and anything that appears to be or takes the form of medicine. Students may administer their own vitamins but should give the nurse a list of what they are taking.
- 8. Refills are the sole responsibility of the parents/guardian. The nurse will not be responsible for medication refills even if a local physician is used.

MEDICATIONS BEING TAKEN

SI	Please list all routine medications. This includes medications taken for a temporary illness and even over- the-counter medicines, which, according to a physician's orders, must be taken at a higher dosage than recommended on the packaging. Medications must be accompanied by a written statement from the prescribing physician detailing the administration of the medicine. Medications are distributed at breakfast (B), Lunch (L), dinner (D), and bedtime (BT). The student should bring at least a one-month's supply when he/she first arrives at the school. When students are sick at Foxcroft Academy, it is often considered wise to provide them with over-the-counter medication for symptom relief, thereby increasing their comfort level. The dorm staff on duty, with the assistance of the nurse, may decide which medications are useful in illnesses not requiring a healthcare provider's evaluation.

If there are any medications which the student sho well as the reason for this decision.	uld not have, please list them here as

Foxcroft Academy cannot assume responsibility for the medication needs of a child when traveling outside of the supervision of the school. The school will provide medications to students leaving campus for weekends or breaks, provided that the parent/guardian has provided the school with signed authorization, and the prescribed medications are available.

I/We give	permission to transport his/her			
medications from school to the location where he/she is traveling to spend the weekend				
and/or break. I assume all responsibility for the medication from the time it is given to medical child, until it is returned to the nurse or dorm staff at Foxcroft Academy.

AUTHORIZATION FOR MEDICAL AND/OR SURGICAL TREATMENT AND FOR RELEASE OF INFORMATION

* THIS FORM MUST BE COMPLETED TO ENTER SCHOOL AS A BOARDING STUDENT.

Every effort is made to contact and inform a student's parents or guardian in case of medical emergency, mental health emergency, serious injury, or surgical illness requiring immediate surgical intervention. Residential students are cared for primarily by Mayo Practice Associates, Mayo Regional Hospital and Eastern Maine Medical Center (EMMC), respectively the medical practice and Emergency Department located in Dover Foxcroft and Bangor, Maine. In addition, students may be referred for care to other providers, specialists and hospitals in our locale.

On isolated occasions the parents or guardian cannot be reached. Accordingly, they are requested to sign the following statement: *In the event of illness or accident involving our/my son/daughter,* we/I hereby give permission to Foxcroft Academy, its officials, and all physicians, surgeons, therapists and dentists retained by the school, to secure and furnish medical, mental health, dental or surgical care and treatment for him/her; and to give, administer and render any treatment or aid deemed necessary to protect, preserve, and safeguard the life and/or health of our/my son/daughter. This includes any immunizations, diagnostic xrays or scans, blood testing, anesthetics, or surgery. We/I further authorize Mayo Practice Associates, Mayo Regional Hospital and EMMC to exchange all health care information regarding the medical, mental health, dental or surgical care of my/our son/daughter to and from Foxcroft Academy's Head of School, Assistant Head of School for Boarding, Director of Residential Life and to and from their school nurse or designee. This information will be used to allow Foxcroft Academy to provide continuity of care to my/our son/daughter. It will also allow Foxcroft Academy to keep me/us aware of all current health information. We/I further authorize Foxcroft Academy to release information regarding the medical, surgical, dental or mental health care of my/our son/daughter, as is necessary for the completion of a claim for health insurance. This authorization shall remain in effect for the duration of enrollment at Foxcroft Academy, terminating upon graduation. Please answer the following questions about the <u>person named above</u> for influenza vaccine each fall: 1. Does this person have a severe (life-threatening) allergy to eggs? Yes No 2. Has this person ever had a severe reaction to an influenza vaccine? Yes No 3. Has this person ever had Guillain-Barre Syndrome? Yes No

4/13/18

Dear Parents/Guardians,

The Maine Department of Health and Human Services and Department of Education have revised the Maine School Immunization Requirements rule to now include meningococcal meningitis disease. These changes further align Maine's immunization rules with current national recommendations to better protect the health of all Maine people. Meningococcal disease is a rare, but dangerous disease that strikes healthy young people without warning. It can affect all ages, but teens and young adults are at highest risk of getting the disease.

The following changes are effective for the 2018-2019 school year for all students attending a public or private school in the State of Maine:

- One dose of meningococcal vaccine MCV4 (serogroups A, C, W, and Y) is required for all students entering 7th grade.
- Two doses of meningococcal vaccine MCV4 are required for students entering 12th grade, with a minimum interval of 8 weeks between dose one and dose two. If the first dose of meningococcal vaccine was administered on or after the 16th birthday, a second dose is not required.

We are providing you with this information now so that you have ample time to schedule an appointment prior to the first day of the 2018-2019 school year.

Attached please find the Frequently Asked Questions for more information on this new school immunization requirement.

If you have any questions, please contact your primary care provider who has access to your students immunization records, or the school nurse, Judy Gilbert at 564-8351.

For further questions, please contact the Maine Immunization Program at (207) 287-3746 or (800) 867-4775 or by email at lmmunizeME.DHHS@maine.gov.

Thank you. Judy Gilbert RN Foxcroft Academy
