Consequences

Drivers of school buses are authorized to enforce the safety and riding regulations and to make decisions as necessary in the interest of the safe conveyance of school children. If children fail to comply with regulations or wishes of the bus driver, suspension or expulsion from riding privileges may result.

Discipline forms will be used by all drivers to keep student, parents, the school and bus contractor informed about noncompliance of regulations. These will be given directly to the students mailed to the parents, or given to school officials and must be signed by a parent or guardian and returned to the bus driver before the student is allowed to continue riding.

Depending on the severity and nature of the incident will depend upon the consequences. As the riding regulations state, numbers 2,5,6, & 7 will result in immediate suspension; however, violation of any others may also if the drive determines it necessary. The first suspension of riding privileges will be three school days in length the second will be five, and if continual misbehavior results in a third suspension, riding privileges will be suspended for the remainder for the school year or until the bus driver, contractor, parents and student meet with the Superintendent to determine whether the student will be allowed to ride the school bus.

The school bus disciplinary form will explain the incident and consequences and must be returned to the driver before the student is allowed to continue riding. These notices will be kept on file throughout the school year at each school and the contractor’s office.

It must be noted that any student suspended from riding one bus will not be permitted to ride on any other bus. This includes sports events and field trips.

Parents are encouraged to contact the bus contractor if they have any concerns. Drivers will make themselves available to explain any incident in question and how they determined the consequences. If any parent is not satisfied with his/her communication with the contractor or driver, they should then contact the Superintendent of Schools. A log of this communication will be kept at the contractor’s office throughout the school year.
