

**STUDENT TECHNOLOGY AND INTERNET USE
RULES/PERMISSION**

All students are responsible for their actions and activities involving Foxcroft Academy (FA) computers, iPads, network and Internet services, and for their computer files, passwords and accounts. The Technology and Internet Use Rules are included in the Student Handbook. These rules provide general guidance concerning the use of FA's resources and examples of prohibited uses. The rules do not attempt to describe every possible prohibited activity by students. Students, parents and school staff who have questions about whether a particular activity is prohibited are encouraged to contact the Assistant Head of School for Academics. These rules apply to all FA provided computers and iPads wherever used, and all uses of FA's servers, Internet access and networks regardless of how they are accessed.

My signature below indicates that I have read and understand the Technology and Internet Use Rules. I agree to allow my student to take the iPad home with full understanding that any damage, loss or theft will be my responsibility and not the responsibility of Foxcroft Academy. I additionally agree to allow my student to access Google G Suite and any additional Google services enabled by the school.

There are three available iPad protection plan options. Please indicate your choice below.

_____ I **will** purchase the iPad protection plan that is provided to me by Foxcroft Academy and my student will be allowed to install personal apps upon receipt of the full payment. (\$50 annual premium, please make check payable to Foxcroft Academy). An additional \$15 deductible will apply for each incident resulting in a repair claim.

_____ I **will not** purchase the iPad protection plan that is provided to me by Foxcroft Academy and I understand that my student **will be restricted to school apps only and any damage, loss, or theft will be my responsibility and not the responsibility of Foxcroft Academy.**
